

OmniJoin for Healthcare

OmniJoin web conferencing from Brother

delivers high quality, highly secure voice, video and collaboration through web meetings, in our public cloud or your own private cloud.

Brother International Corporation is one of the premier providers of products for the home, home office and office.

Telehealth.

Expand Your Reach and Serve More.

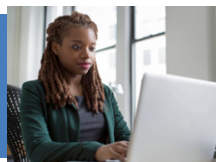

OmniJoin meets the HIPAA requirements under the security rule, while making it easy to provide remote care, conduct online meetings and offer training sessions in hassle-free, HD video.

Tele-consultations.

Establish Your Professional Network.

As an alternative to face-to-face or strictly phone-based clinical collaborations, you can securely discuss patient information and share medical records with other medical professionals via a secure, telehealth session.

Tele-education.

Eliminate Costs Associated with On-site Training.

The ability to receive interactive medical training without traveling to a classroom creates efficiency and saves time for busy clinicians.

Tele-meetings.

Web Conferencing for Healthcare and Beyond.

In addition to telehealth, OmniJoin for Healthcare provides a complete web and video conferencing solution for ongoing administrative working session as well as virtual board meetings.

Patient Friendly and HIPAA Ready

HIPAA compliant video conferencing is fast becoming a must-have technology for healthcare providers looking to expand their reach. Large healthcare institutions and solo practitioners alike are utilizing the OmniJoin cloud-based telemedicine solution to grow their telehealth practices and personally connect with patients from virtually anywhere.

OmniJoin Waiting Room

Doctors can conduct remote telehealth appointments either on demand or by scheduling and queuing through the OmniJoin Waiting Room. Your patients can enter your 'virtual' Waiting Room via a comfortable online setting, which helps you maintain your high quality of care and serve more people.

- Brand your Waiting Room with a graphic and custom message
- Patients are queued in the order in which they enter
- Admit or expel patients with one click

Waiting Room

It's that easy. Walk-ins welcome!

The OmniJoin for Healthcare Advantage

- 1 Advanced Security**
OmniJoin meets the HIPAA requirements under the security rule
- 2 Meet the Way You Want To**
It's easy to host and join appointments from virtually anywhere with our mobile conferencing app
- 3 Share With Confidence**
Transmit, share and annotate patient charts, prescriptions and X-rays
- 4 Drive Clinical Excellence Throughout Your Institution**
A powerful telehealth platform and an end-to-end video conferencing solution...all in one

"OmniJoin has become one of the most successful of all the telemedicine applications... We have found web-based video conferencing to be an effective service-delivery method."
