

OmniJoin Meeting Modes

OmniJoin web conferencing from Brother delivers high quality, highly secure voice, video and collaboration through web meetings, in our public cloud or your own private cloud.

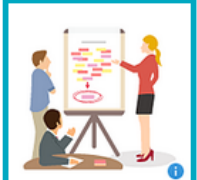

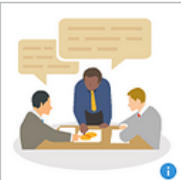

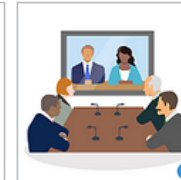

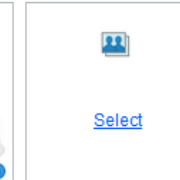

OmniJoin is the only web conferencing solution that introduces pre-set modes that allow users to select a meeting format that is right for their specific online meeting. These modes are designed to support one click meeting formats with preconfigured video, audio, feature and layout settings. OmniJoin currently provides 4 different modes and the best part is - the host has the ability to change the mode DURING their online meeting.

Why Use Meeting Modes?

1. Allows users to easily choose a meeting format without going through advanced meeting set up
2. Gives users the best possible meeting configurations for a seamless conference experience
3. Enables users to switch a meeting format DURING the actual web conference
4. Custom Modes let users create their own meeting mode for a truly personalized experience

Select a Meeting Mode

Meeting modes are collections of predefined room settings to suit different meeting scenarios. Select the Meeting Mode you want to apply.

Brother International Corporation is one of the premier providers of products for the home, home office and office.

OmniJoin Meeting Modes: Meeting

The **Meeting** mode is the default mode for OmniJoin conferences. It is ideal for small or medium sized conferences where a host will want to have a two way conversation with their attendees.

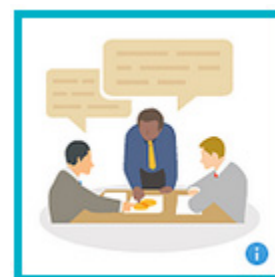

Audio	Integrated audio (dial-in + VoIP)
	Audio starts on for all attendees
Video	Video on for everyone
	Attendees can control their own audio
	Set to 720p HD quality
Layout	Layout 2
Attendee privileges	Chat
	View attendee list
	View attendee phone numbers
	View any share
	View any page

OmniJoin Meeting Modes: Collaboration

The **Collaboration** mode is ideal for small groups that are engaging in a brainstorming session and working together on shared projects.

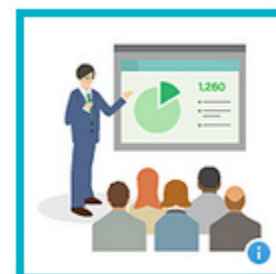

Audio	Integrated audio (dial-in + VoIP)
	Audio starts on for all attendees
	Attendees can control their own audio
Video	Video on for everyone
	Attendees can control their own audio
	Set to 720p HD quality
Layout	Layout 1
Attendee privileges	Chat
	View attendee List
	View attendee phone numbers
	View any share
	View any page
	Save shared documents
	Print shared documents
	Remote control

OmniJoin Meeting Modes: Presentation

The **Presentation** mode was designed to mimic a webinar-style web conference. Use this mode when a host or presenter is sharing a slide show or document to a larger audience and will be 1-way communication.

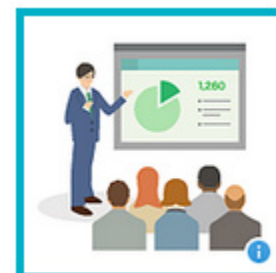

Audio	Integrated audio (dial-in + VoIP)
	Audio starts on for hosts and presenters only
	Attendees cannot control their own audio
Video	Video on for hosts and presenters only
	Attendees cannot control their own audio
	Set to 320x240 video resolution
Layout	Layout 1
Attendee privileges	Chat

OmniJoin Custom Modes

OmniJoin allows users to create their own customized Meeting Modes with permissions from their administrator. Go through a simple set up wizard to configure a Meeting Mode built to your own specifications.

Choose the attendee's roles

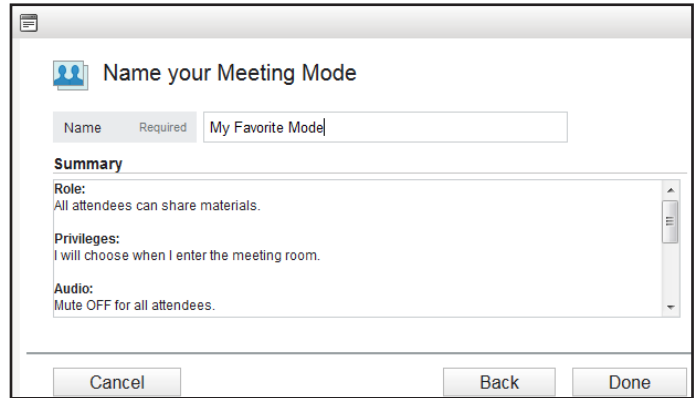

Attendee's Role

What sharing permissions would you like Attendees to have?

- All attendees can share materials.
- Attendees have the same sharing and admin permissions as the host.
- Only I can share materials.
- I will choose when I enter the meeting room.

Buttons: Cancel, Next

Choose the attendee's video settings

Name your Meeting Mode

Name Required

Summary

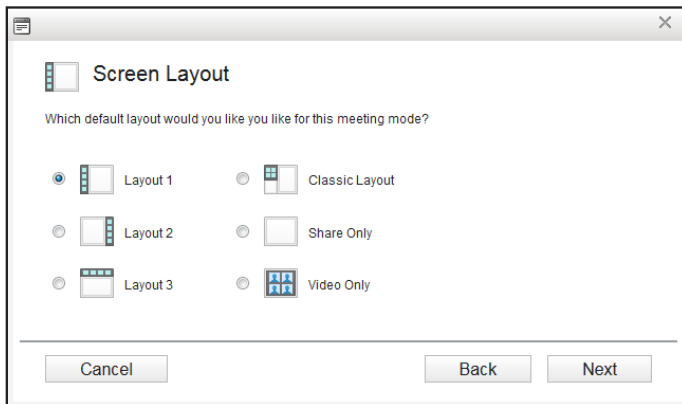

Role:
All attendees can share materials.

Privileges:
I will choose when I enter the meeting room.

Audio:
Mute OFF for all attendees.

Buttons: Cancel, Back, Done

Select the preferred layout for your mode

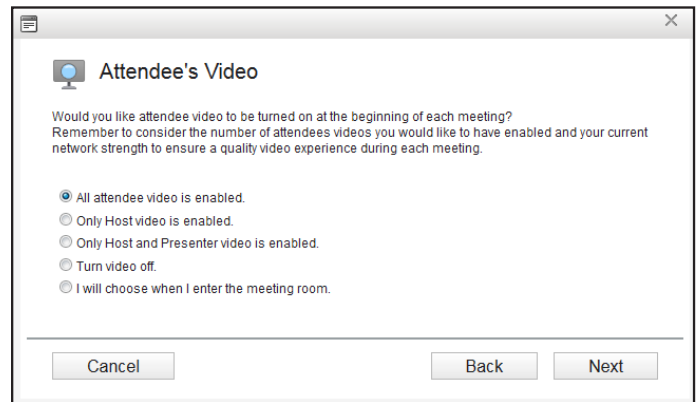

Screen Layout

Which default layout would you like you like for this meeting mode?

- Layout 1
- Layout 2
- Layout 3
- Classic Layout
- Share Only
- Video Only

Buttons: Cancel, Back, Next

And lastly, give your mode a name

Attendee's Video

Would you like attendee video to be turned on at the beginning of each meeting?
Remember to consider the number of attendees videos you would like to have enabled and your current network strength to ensure a quality video experience during each meeting.

- All attendee video is enabled.
- Only Host video is enabled.
- Only Host and Presenter video is enabled.
- Turn video off.
- I will choose when I enter the meeting room.

Buttons: Cancel, Back, Next

Don't forget that modes can be changed during a meeting. Just like your meeting rooms' layout giving you the ultimate control and flexibility for a web conference.
