

OmniJoin Waiting Room

OmniJoin®
web conferencing
from Brother
delivers high
quality, highly
secure voice, video
and collaboration
through web
meetings, in our
public cloud or your
own private cloud.

The OmniJoin® waiting room feature gives doctors and practitioners the ability to create a virtual waiting room, where you can queue and meet with patients quickly and efficiently. As the owner of the waiting room, you can view all waiting patients, and admit or expel them through our attendee management window. All activity is archived and can be used to assist with billing insurance.

- 1 Connect providers and patients through HD video
- 2 Securely share patient charts, prescriptions and X-rays
- 3 Admit or expel patients with one click
- 4 Enhance collaboration with robust annotation tools
- 5 Track the amount of time a patient has been waiting

A Seamless Patient Experience

- Your patient's screen name
- Add a graphic to brand your practice
- Customize your 'in-waiting' message

Brother International Corporation is one of the premier providers of products for the home, home office and office.
